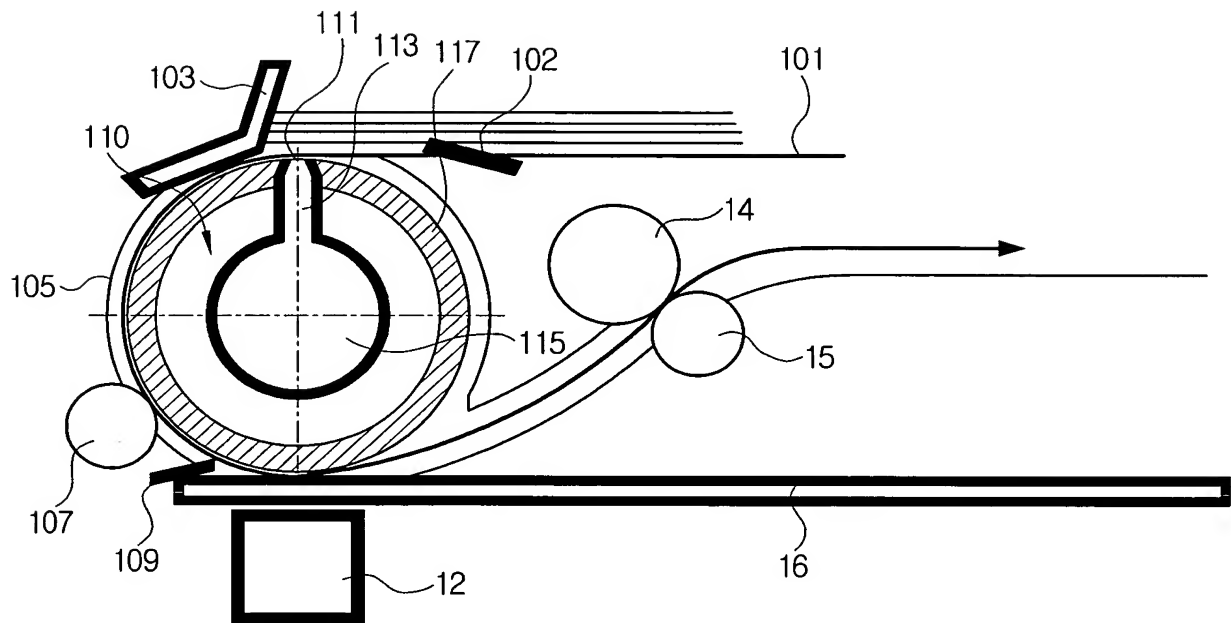

FIG. 2B

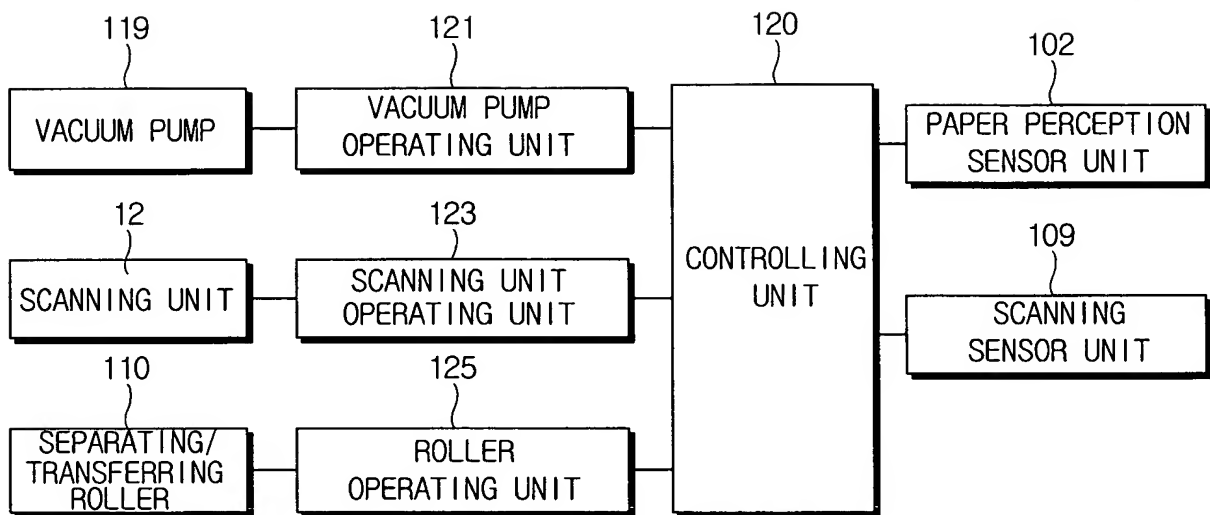

FIG. 3A

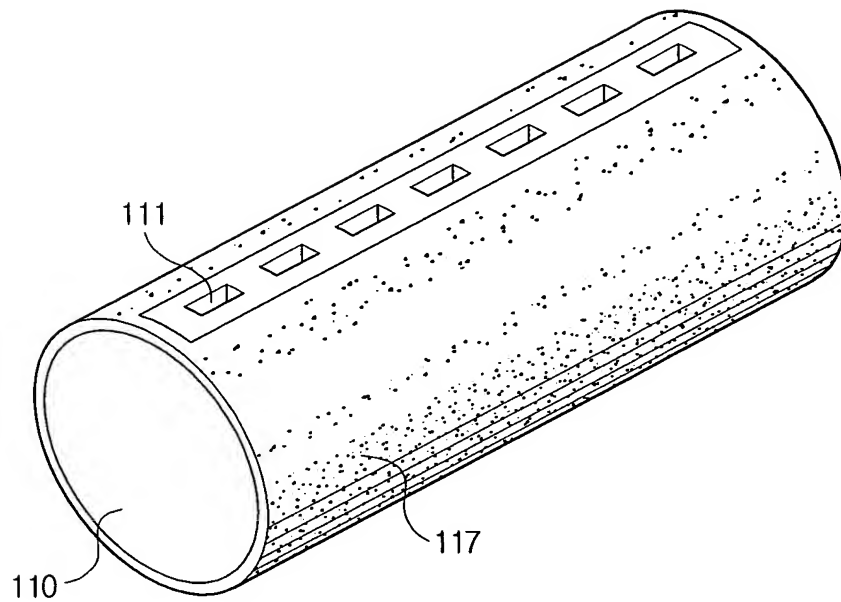

FIG. 3B

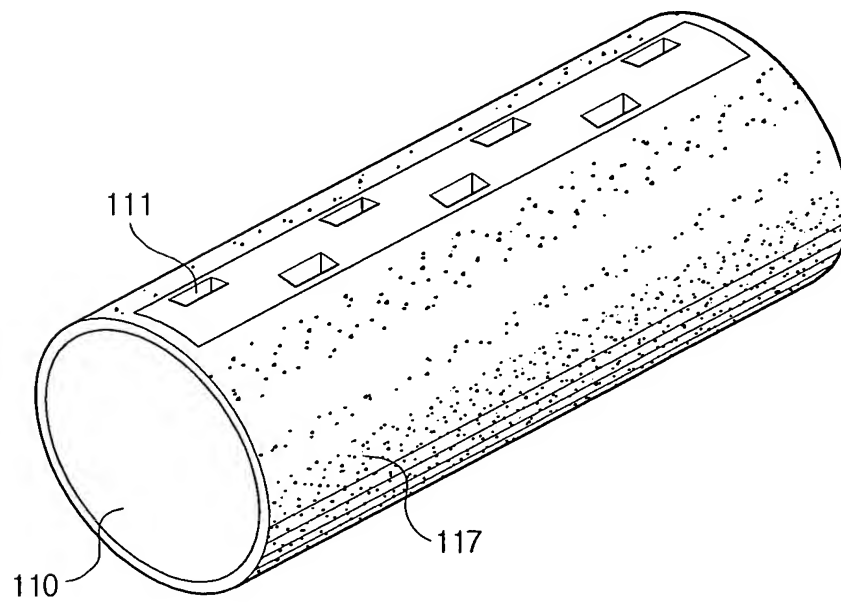

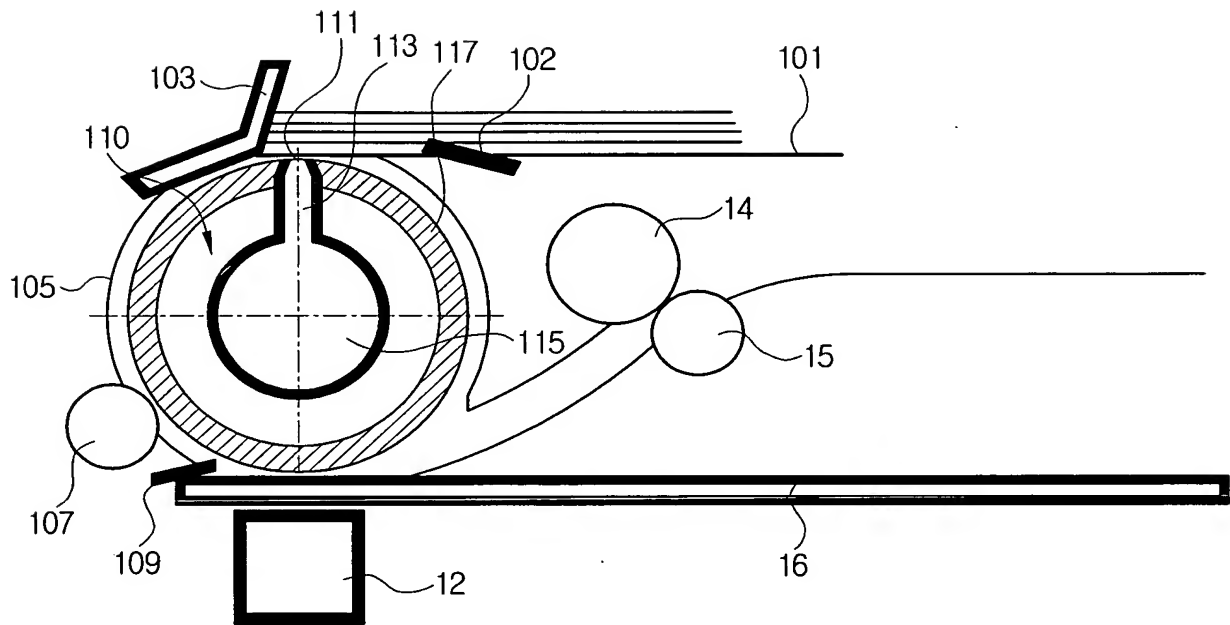

FIG. 4A

This cross-sectional view shows a central rotating assembly. A central shaft (101) is supported by a bearing (102) and a housing (103). The shaft is connected to a central hub (105) which has a central bore (111). The hub is surrounded by a ring (107) and a housing (109). The entire assembly is mounted on a base (12) which is supported by a pedestal (16). The assembly is shown in a cross-sectional view with dashed lines indicating the central axis.
